

The Camp Pendleton Recycling Program

Recycling is a component of Camp Pendleton's solid waste management program and its primary function is to reduce the volume of waste disposed into the Base Landfills and to meet Federal, state, and local requirements.

Family Housing

- All homes are provided recycling bins for curbside collection.
- Aluminum & metal cans, plastic & glass bottles, jugs and jars can be commingled and placed into the same container.
- Newspaper, chipboard, cereal boxes, paper, cardboard and junk mail should be placed in the same container.
- Excess recyclables should be placed into clear plastic bags and placed next to the recycling bins.
- Trash should never be placed in recycling bins.
- Plastic grocery bags should be returned to the commissary or local grocery store.
- Call your housing office for pick up of bulky items, such as furniture, washers and dryers.
- Dumping trash and bulky items is illegal.
- Scavenging, theft of recyclables from residential curbside bins is illegal and reduces the money returned to the Base for projects that benefits everyone.
