On-Site Child Care

Occasional hourly childcare services may be provided on site when parents are attending a base or unit function. There are two options for hourly on-site care. The first is Child Care in a Unit Setting (CCUS), which allows a base organization to provide child care during a meeting or function. Under the CCUS concept, personnel from the sponsoring activity provide the child care. The other option is Short-Term Alternative Child Care (STACC), which differs in that employees of CYTP provide on-site care. When utilizing either of these options, parents are on-site, retain custody of their children, and are available in an emergency.

Exceptional Family Member Program

The Exceptional Family Member Program (EFMP) assists families in managing the dual demands of a Marine Corps career and the special needs of a family member. An Exceptional Family Member (EFM) is a family member, enrolled in DEERS and residing with their sponsor who may require special medical or educational services based upon a diagnosed physical, intellectual, or emotional need.

HQMC EFMP screens proposed accompanied orders for enrolled Marines to ensure that the special needs identified in a families EFMP enrollment form (DD2792) can be met at the proposed duty location.

If sufficient care is not available, EFMP will work to ensure a duty location where both career progression needs and EFM needs are met.
