All lending library items may be borrowed from the Camp Pendleton Lending Library to be used on a trial basis with family members enrolled in the Exceptional Family Member Program. This will allow family members to “consider” a device, literature, sensory equipment or specialized software application for their special needs member. The trial use will help to determine if the items is a successful match prior to purchasing that item from a licensed vendor.

Lending Period?

Items can be checked out for up to 60 days, often with an option to extend for an additional time. Unless there is a wait list for that item. Enrolled Family members should make an appointment by calling (760) 763-6910 to view, pick-up and/or return items. Military sponsors are fully responsible for the items in their care. Materials and devices **MUST** be returned promptly according to their due date, and at the location in which item is received.
