Investing Basics

2nd Wed, 6-7:30pm

Think you need a lot of money to invest in the stock market? Think again! Investing for your future only requires financial knowledge and discipline! In this class you will learn about affordable investment platforms that will help you choose companies based off of historical data, current expenses and expected performance/growth.

Developing a Spending Plan

3rd Wed, 6-7:30pm

Developing a Spending Plan provides instructional content that will inform participants on how to create a spending plan, keep track of their expenses and make use of the various financial ratios that help individuals determine their financial health. The lesson also covers effective financial communication skills for couples and the importance of setting financial goals.
